

MINIBAR ATLANTIC 25

budget friendly and noiseless minibar

Be Dutch minibars not only offer your guests the possibility to serve a cool drink without leaving the room, but are also suitable for keeping medicines, baby food or fruit cool. Offer your guests the best service with a Be Dutch minibar.

The ATLANTIC minibars have a modern design and offer a value for money solution for any hotel. The Atlantic is a standard model minibar with an absorption cooling system making it absolutely noiseless. On top of that, it consumes 10% less energy than the average absorption minibar.

approval	: CE/EMC/CB/CCC/ROHS
temperature	: 3-8 °C
dimensions	: 502 x 380 x 405 mm

SKU code : E-698-25ATL15

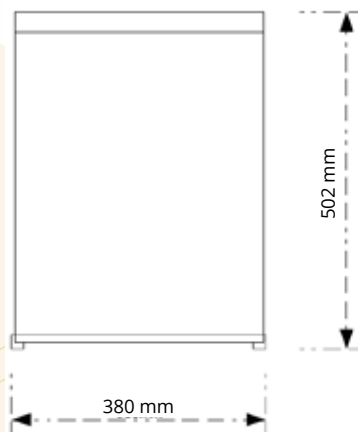

Important

The installation of the minibar needs to be carefully considered to allow for good air circulation. The ventilation grids should have a minimum surface of 240 cm² and a minimum distance of 5cm between the wall and cooling system for full functionality.
