MINIBAR ECOLINE 40 GLASS DOOR

eco friendly and noiseless minibar

BE DUTCH minibars do not only offer your guests the opportunity of having a cool drink without leaving the room, but are also fit for keeping medicines cool. We offer a variety of options.

The ECOLINE minibars have Peltier cooling, which means they are vibration-free and therefore completely silent. It uses 50% less energy than a traditional minibar and is CFC-free, so you contribute to a better environment and save on your operational costs.
