SAFETY DEPOSIT BOXES

PETER (1) & PETER (2)

Your staff is busy all day, has many responsibilities and things to focus on, such as service and safety.

Provide your hotel with tools to make this as easy and safe as possible. Be Dutch deposit safes can be used to securely store cash and documents.

The deposit safes are available in two sizes and you have the choice of opening with a key or digital code. Suitable for anchoring to the floor.

The safes are also very suitable for other places with a lot of cash, such as gas stations, shops and leisure parks. The deposit safe is an excellent intermediate station between a cash drawer and a (night) safe or bank. The daily revenues disappear via an input valve in the so-called master safe.

PETER (1)

Deposit safe PETER (1) key

SKU code: D-685-REC11

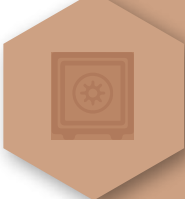

- provides protection against theft
